Profile

Industrial Design (ID) lead for product development programs across medical, consumer and commercial product categories. My superpower is an affinity to keep the human experience centerstage within my work. I leverage my core skillset to develop and visualize compelling design opportunities that create realistic, engaging product experiences.

Experience

Delve – 2010-2025

Principle Industrial Designer (Remote) – 2021-2025

ID lead for innovation programs with advanced usability needs and high technical complexity. Coordinated my role within large multi-disciplinary teams of Researchers, Human Factors, Interaction Designers and Electro-Mechanical Engineers.

Boston Studio Design Lead (Boston) – 2018-2021

ID Lead for a newly established satellite office. I led design efforts with Delve's East Coast clients and supported local Business Development as we established a client base during the initial years of the studio's growth.

Senior Industrial Designer (Madison | Remote) – 2010-2017 | 2018

Quickly grew from a Junior role to ID lead for a wide range of efforts across the core business sectors: Medical, Consumer and Commercial Products. Over this time I established a broad range of design capabilities supporting efforts ranging from Design Strategy, Conceptual Design to Alpha/Beta Design Refinement.

Education

Auburn University; Auburn, AL – Bachelor of Industrial Design, 2007

Skills

3D Visualization: SolidWorks, Keyshot Render, Rapid Prototyping, Physical Model Making
2D Visualization: Sketchbook Pro, Adobe Creative Suite, Sketch Render
Specialties: Design Strategy, Ideation Facilitation, Anthropometrics

Products to Market

Med Device: ICU Medical [Plum Solo & Duo](#), Dexcom [G6](#), Angio Dynamics [Alphavac](#), Abbott [Alinity M](#), INOmax [Evolve DS](#), Orasoptic [Dragonfly](#)
Consumer: Fiskars [Food Gardening](#) | [Indoor Gardening](#), Weber [Pulse](#) | [Lumin](#)
